Dear Talent Acquisition Team,

Arista Networks,
Montreal, Qc

I am writing to express my interest in the Junior Software Engineer position at Arista Networks. As a recent graduate from Le Wagon's full-stack web development bootcamp, I am eager to apply my skills and knowledge to a professional setting, and to be a part of a team that is passionate about creating innovative and impactful technology.

Throughout my bootcamp, I had the opportunity to work on several projects that allowed me to develop my skills in modern web technologies, such as JavaScript ES6, SCSS, Ruby on Rails, Heroku and Cloudinary. However, I am also focused on performance, UI/UX using React, Node, Express, MongoDB and AWS. I am proficient in Git and GitHub for version control and team collaboration.

I want to join your company because you provide a real possibility to gain knowledge and I want to grow my skills with like minded individuals. This is very important to me and I feel we have similar goals and motivations. The technologies used by your company are some of the technologies I use on a daily basis as I code every single day and weekends. If I can work for your company and grow with your company, It would make me really happy to know that I have a solid group of people as a foundation, where we can help and motivate each other and cherish the successes.

I am a quick learner, and I have a strong passion for solving complex problems. Solid understanding of Agile development methodologies and I am excited to bring my positive attitude, strong work ethic and eagerness to learn to your team. I am thrilled about the opportunity to work at Arista Networks and I am confident that my abilities make me a strong candidate for the Junior Software Engineer position.

After reviewing my attached resume, please contact me to arrange an interview. I am looking forward to the opportunity to speak with you further and to discuss my qualifications and how I can contribute to the success of your company.

Thank you for your time, consideration and forthcoming response.
Sincerely,

Giovanni Reid
